

The Endgame Wallet

When Does Abstraction Go Too Far?

Gregory Markou

Co-Founder - ChainSafe & Sprinter

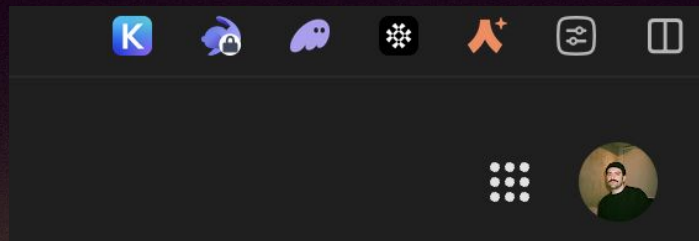

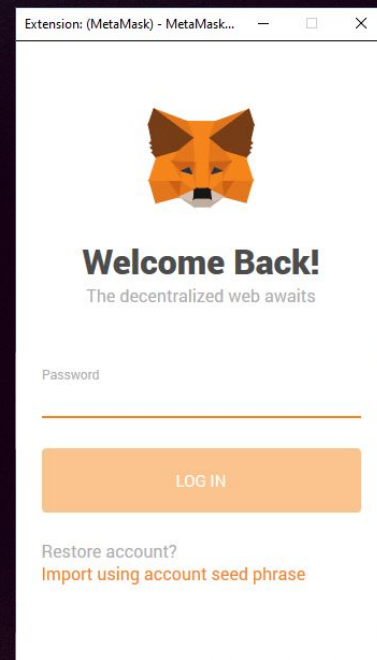

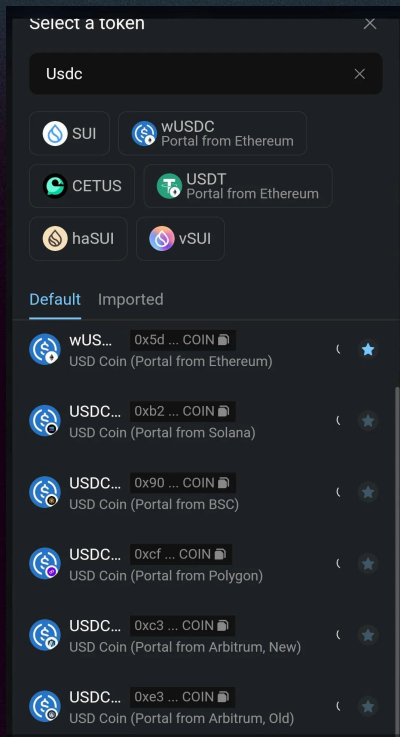

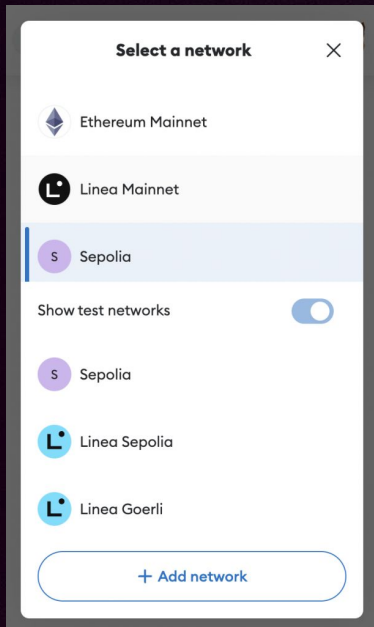

Chapter 1

Where We Started

Do you remember?

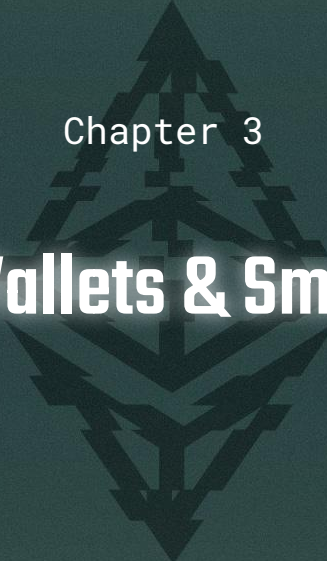

Chapter 2

Where we're going

10 Smart Accounts on 10 chains

- STOP SELLING TO APPLICATIONS
- Unless they're equipped to take on the full wallet infra, just do not.
- We're fragmenting balances further
- Mobile apps are still broken

Chapter 3

Smart Wallets & Smart Apps

90%

Of transactions will be fulfilled by a solver

Smart vs Dumb

The wallet

- Always smart
- Routing
- Swapping
- Resource lock aware

The App

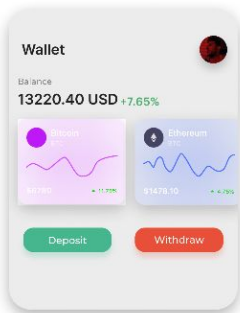

- Only smart when it's multi-chain first
