Ethereum is accelerating!

Ethereum is accelerating!

- Decentralized innovation
- Speed of protocol improvement is on the rise
- The Beam Chain

Ethereum has existential risks

X-risks of Ethereum

- Global network disruptions
- Protocol bugs
- Layer 0 cracks
- Regulations
- Centralization risks
- Many more and...
- Unknown unknowns

Reducing Ethereum's x-risks

Reducing Ethereum's x-risks

- Research x-risks
- Quantify x-risks
- Raise & distribute grants

**Ethereum x-risks need
a lot more attention and funding**

Novel research problems

- Quantifying & incentivising defensive technologies
- Research defensive technology funding
- OpenAI has failed!
- Can't have Ethereum x-risk markets on Ethereum(!)

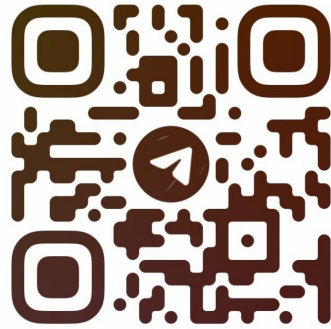

100+ years

Grow Ethereum to help all of humanity

Thank you!
