

D/ACC The Swiss Way

Zuiterland: a network state and society sandbox

Isla Munro & Una Wang

Zuiterland

Zuiterland

A Swiss Network State ✕ Future Society Sandbox

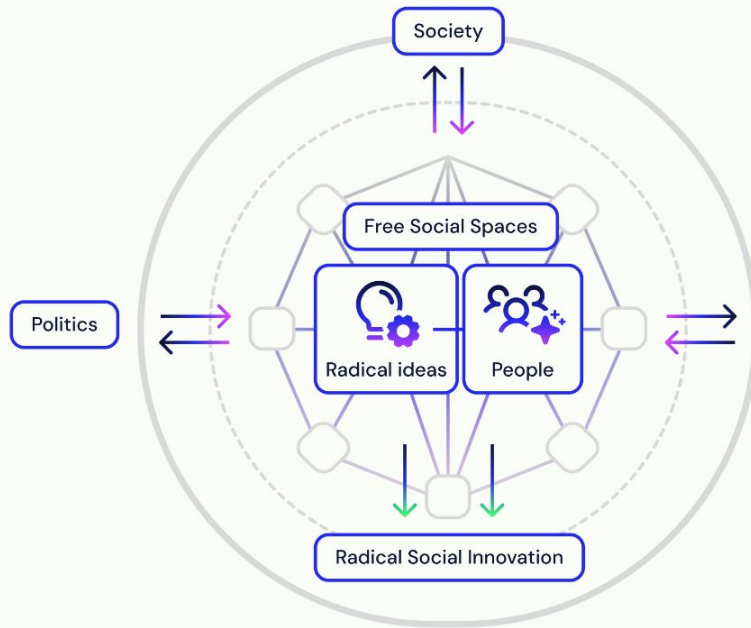

D/ACC The Swiss Way

➤ Join a ready-to-launch network state experiment

- ✦ Be part of building one of the world's first livable network state experiments
- ✦ A joint venture between real-estate investors "Next Gen Village" and the Swiss Zuzalu node, "Zuitzerland"
- ✦ We're building a sandbox where global pioneers can prototype the civilization of tomorrow

Frontier technologies' potential impact cannot be fully unlocked without a bridge to the real-world

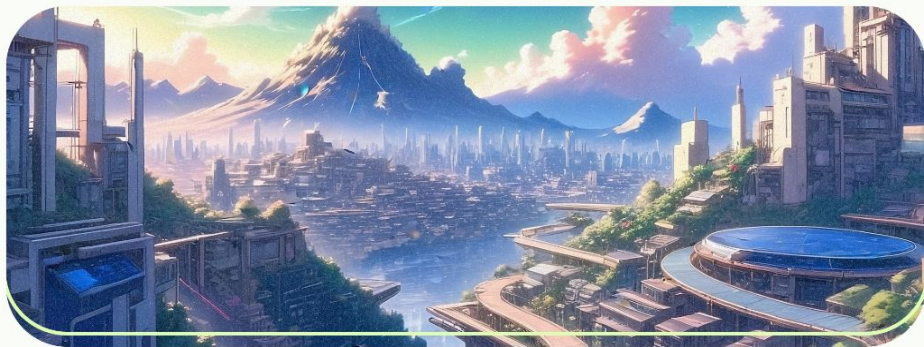

What's needed to get there?

- 1 Starting from solid foundations of what works in the real world and **learning from successful models** for coordination and innovation at scale.
- 2 **Faster experimentation and iteration** with social technologies and coordination mechanisms in action.
- 3 **Thoughtful discourse** on use-cases and decentralized models built for resilience and longer-term sustainability

Switzerland is often considered to
be the closest thing the real world
has to a classical-liberal governance
utopia.

Vitalik Buterin

➤ Switzerland offers the ideal location for a **well-designed {sandbox}** to incubate new **path-breaking innovations** in a **d/acc aligned way**.

Cultural technology

Superior social-technical systems aka 'coordination' require learning from what works in existing irl coordination models (e.g. Swiss governance, democracy, mindset)

Decentralisation by default

Switzerland offers huge potential to leverage and build on existing models for decentralised governance in frontier tech, allowing for knowledge transfer on D/ACC minded techno-optimist innovation.

D/acc alignment

Switzerland has managed rapid evolution of society and technology in a uniquely d/acc aligned way. Thus it possesses an advanced 'cultural technology' in its history and societal mind-set.

**Forming a network
state sandbox for
innovators
inspired by the
best of current
nation state
models.**

Global innovation leadership

World no .1 in innovation per capita

Excellent infrastructure

D/ACC governance, culture and mind-set

Technological progress and safety well-integrated

Low company tax rates

Built to last

700 year history of decentralization

Clear, well-defined crypto regulation

Policy independence

Stable governance, strong currency, excellent economy

Talent magnet

Exceptional living standards

Central European accessibility – heart of Europe

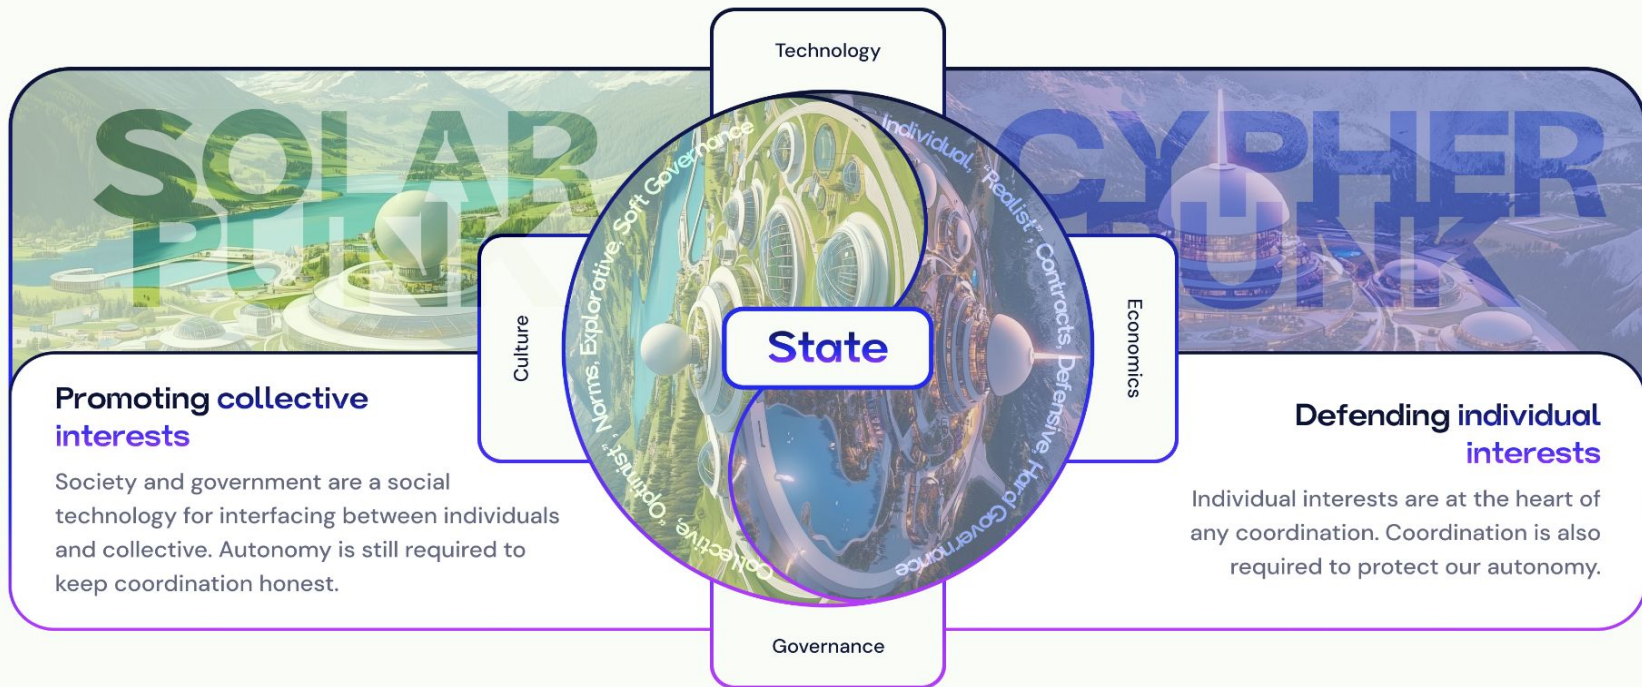

Attractive wealth and income tax regimes

Access to EU talent, but not part of the EU

Ethereum Foundation, Web3 Foundation,

Philosophy

With a clear plan for learning from Switzerland's **secret sauce** in creating a thriving d/acc society

≡ Zuitzerland 2025 ≡

8 weeks

May + June 2025

Interlaken, Switzerland

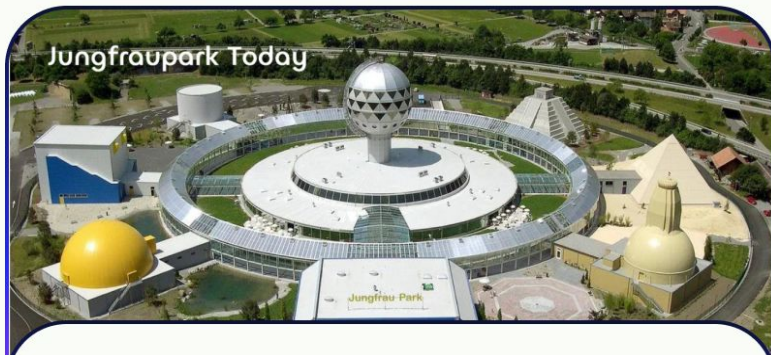

Frontier Deeptech

Governance, Swiss democracy, UBI models,
AI, X-Risk, Humanism, Rationality, DAOs,
Privacy + ZK Tech, Biotech, Longevity and BCI

But that's not all...

We're acquiring an extensive village-like venue, accelerating societal frontiers in a living lab

Jungfrau Park (current state of Interlago)

- 100,000m2 tourism-zoned park
- Hosts up to 8000+ people for events
- Significant unique and well-functioning infrastructure
- Ideal for conferences, events and pop-up cities

Interlago 2030 Vision

- Plans in development for a future-living village
- Capsule hotel, R&D labs, co-living hub
- Cloud tower bar & restaurant,
- Expansion options with airstrip and neighboring land
- In discussions for a hotel on neighboring property

Why a permanent sandbox?

Change within the regime
tends to be incremental and
path-dependent...
'Revolutionary' change
originates in 'Niches.'

G. Seyfang

Zuiterland has all the ingredients in place to create a meaningful {sandbox}

Social technology makes it easier to scale institutions. The more advanced your social technology, and the more you can reduce coordination costs, the more effective your institution becomes.

People

Zuzalu as a foundational 'cultural technology' and the Zuiterland community

Culture + Philosophy

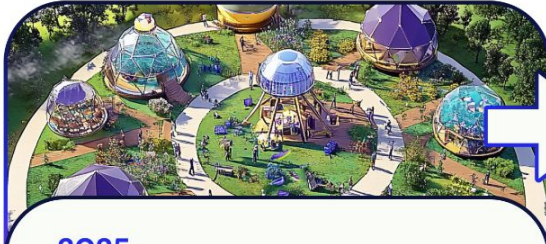

700-year history of decentralisation and D/ACC aligned philosophy in Switzerland

Space / Infrastructure

Next Gen Village park being acquired as part of 'Interlago' joint venture

Interlago: Switzerland's network state sandbox, accelerating the new era of civilization, safely.

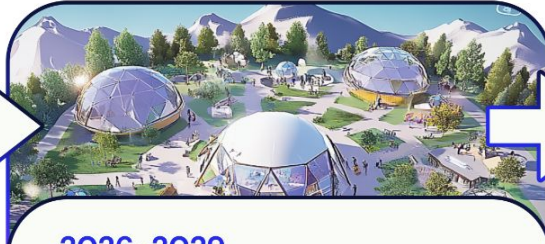

2025

Pop-up village and pioneer residency

Initial pioneer residents living on-site in existing infrastructure.

- ✦ 200 Living Capsules
- ✦ 300 'Pioneer Residents'
- ✦ 1000+ 'Visitors'
- ✦ Zuitzerland 2025 (Pop-up city)
- ✦ CHF 2m revenue

2026-2029

Experimental Village and Living Labs + Sandbox

Larger-scale renovations begin. Development of living labs.

- ✦ 1000 'Pioneer Residents'
- ✦ 50 Partner Institutions
- ✦ 10 Living Labs
- ✦ CHF 5-10m annual revenue

2030 Onwards

High-Tech 'Civilization Accelerator' Village

On-site capsule hotel, co-living, bar + restaurants. 'Pioneer citizenship'.

- ✦ Pioneer citizenship
- ✦ Real-estate sales
- ✦ 20+ Pioneer communities
- ✦ CHF 40-50m annual revenue
- ✦ Additional tech / investment returns
