

Wallet Infra Improvements

and Building Apps for the
Next Generation

Medha Kothari

Product, Uniswap Labs

“We need better UX in crypto”

We need *opinionated*
products

How do we *make it easier* for users
to do things with their balance?

I want to buy

I want to buy  BLAH so I....

I want to buy  BLAH so I....

- Download a **wallet**

I want to buy  BLAH so I....

- Download a **wallet**
- Transfer my **ETH** from **RobinHood**

I want to buy  **BLAH** so I....

- Download a **wallet**
- Transfer my **ETH** from **RobinHood**
- Bridge that **ETH** on Mainnet to **Base**

I want to buy  **BLAH** so I....

- Download a **wallet**
- Transfer my **ETH** from **RobinHood**
- Bridge that **ETH** on Mainnet to **Base**
- Swap some of that **ETH** on **Base** for **BLAH** on **Uniswap**

I want to buy  **BLAH** so I....

- Download a **wallet**
- Transfer my **ETH** from **RobinHood**
- Bridge that **ETH** on Mainnet to **Base**
- Swap some of that **ETH** on **Base** for **BLAH** on **Uniswap**, and keep some of it in **ETH** for gas

Infra Innovation

User Improvement

Infra Innovation

- EIP 7702 & Other AA

User Improvement

- Gas Abstraction
- Batching multiple actions at once

- Discovery & Context

Right now is the *best* time to build
consumer crypto apps.

Thank you
